# CARISHA

**Hi! Please introduce yourself.** – My name is Carisha and I come from Slovakia, a charming country in Eastern Europe. I was born there and that's where I have spent most of my 21 years.

**What are your hobbies?** – As you may have noticed, I am a sporty person. I love all kinds of sports, but my favourites are roller-blading and tennis. In addition to sports, I enjoy exploring other countries, people, cultures, and also learning new languages. I always say "Speaking another language is to possess another soul".

**How do you spend your spare time?** – I usually just try to relax, but my idea of relaxation is slightly different from other people's: I go out and spend some time in nature with my friends, or I just fly to a different country and explore everything there.

**Do you like reading? What type of books do you prefer?** – I like reading, but I unfortunately don't have enough time to read that many books. I love Paulo Coelho, a very famous Brazilian author. His novels are very real, and I can relate to his stories.

**Do you like going to the movies? What are your favourite ones?** – I do enjoy going to the movies more than watching them at home. I just love the atmosphere there. I like movies dealing with the Second World War. I also like movies with Will Smith, as I am a very big fan of his.

**Do you like travelling? What are the countries that you'd like to visit?** – I am addicted to travelling. Any money that I earn can't stay in my bank account for too long, as I always find a tour package that is too tempting and off it goes. I would love to explore South Africa and Latin America next.

**Could you please describe your personality?** – It is always hard for anyone to describe themselves, but I will try to do my best. If I am to look for some words that describe my personality well, then sensitive and vulnerable are the ones that come to mind, but I also have a very vivid personality. I am always looking for adventure.

**What are your own personal qualities that you value the most?** – Honesty and dedication are the ones that I appreciate the most about myself, and I think that the world would be a much better place if there were more people with these qualities.

**What is the best compliment that you ever received?** – "You are unbelievable!" (meant in a good way, of course!)

**Do you consider yourself a shy type of person?** – I am in a way. Some people may think that nude models can't be shy, considering the stereotype that nude models need to be comfortable being nude with strangers around. However, you can still be shy and be a nude model. Nude modelling is all about art and female beauty. A good photographer can even capture that shyness in his pictures.

**Why did you decide to become a nude model?** – Stefan's professional pictures led me into this beautiful world of artistic nude photography. I am happy to be one of his models because he does such a great job.

**Which do you prefer to be around more, men or women?** What are the qualities that you appreciate in your friends? – I can't say that I prefer men to women or vice versa, it depends on the character of the person that I spend time with. The group of my closest friends consists of both boys and girls. Their characters are very similar to mine, but every one of them is different in a way, and that brings a healthy variety into our friendship.

**What are your plans for the future?** – I am pursuing a Major that will give me the opportunity to work in pretty much any field. I still haven't decided what I exactly want to do. But I would definitely like to have a job that would allow me to travel all over the world.

**Thank you for your time, and for allowing us to have this interview with you!**
